# BROKE FUSE

## Broke Down + Blue

## 1. Beer Drinker's Blues

Barman, barman, won't you bring a beer?  
Something for to quench my thirst  
Something near and dear  
Bring that gold elixir, key to heaven's door  
Bring it in a pint glass, and soon a couple more  
Barman, barman, you just saved my life  
Cheers to you and all you do  
To ease our pain and strife

Barman, barman, come on back real quick  
Seems this beer has gone flat  
Lost some of it's kick  
Don't know quite what happened  
Surely you can see  
Please man won't you quickly pour  
Another pint for me  
Barman, barman, you just saved my life  
Cheers to you and all you do  
To ease our pain and strife

Barman, barman, come on back once more  
Seems this beer's gone funky  
Tastes like wet cardboard  
I wouldn't give this to my dog  
'Cus he's got better taste  
I will need a different beer  
Or else a different place  
Barman, barman, sorry I must go  
I've got beer back in my fridge  
So, I will let it flow

Let it flow!

## 2. Roads & Rails

Roads and rails gonna take me to my baby's door  
Roads and rails gonna take me to my baby's door  
Pretty soon I'll be there  
And I ain't gonna stray no more

At the station, getting on the ten-thirteen  
At the station, getting on the ten-thirteen  
Take me to my baby  
Mister you know what I mean

Had no ticket so they put me off that train  
Had no ticket so they put me off that train  
Gonna get to my baby  
I'll get to her all the same

Got no money, so I gotta walk on back  
Got no money, so I gotta walk on back  
You know this heartache baby  
It's turning to a heart attack

Rails they failed me  
I've been walking all night long  
Rails they failed me  
I've been walking all night long  
When I reach my baby  
I sure ain't gonna feel too strong

Lace and leather bringing me the walking blues  
Lace and leather bringing me the walking blues  
Hope baby's got money  
Enough to pay for my new shoes

Roads and rails got me to my baby's door  
Roads and rails got me to my baby's door  
Now I've finally got here  
And I ain't gonna stray no more

## 3. River Rouge (When I Die)

When I die, won't you take me to the river  
Take me to the river where the water done flow  
When I die, won't you take me to the river  
Take me to the river  
'Fore they take me down below

When I die, won't you drink a little whisky  
Drink a little whisky  
For your brother who has passed  
When I die, won't you drink a little whisky  
Drink a little whisky after I have drunk my last

When I die, won't you have a little party  
Have a little party, won't you have it in my name  
When I die, won't you have a little party  
Brother if you go first I will surely do the same

When I die won't you carry my bones  
Down to the valley where the Rouge River flows  
Where a little boy, where he used to run and play  
Let the water carry him out into the lake

When I die, won't you take me to the river  
Take me to the river where the water done flow  
When I die, won't you take me to the river  
Take me to the river  
'Fore they take me down below

When I die won't you carry my bones  
Down to the valley where the Rouge River flows  
Where a little boy, where he used to run and play  
Let the water carry him out into the lake

When I die, won't you take me to the river  
Take me to the river where the water done flow  
When I die, won't you take me to the river  
Take me to the river  
'Fore they take me down below

## 4. Broke Down & Blue

I'm broke down, I'm broke down  
I'm broke down and blue  
I'm broke down, I'm broke down  
Tell me woman whacha trying to do?

I'm broke down, I'm broke down  
I'm broke down and sad  
I'm broke down, I'm broke down  
Woman why you gotta treat me bad?

Woman why you gotta run around  
All night and day?  
Gettin' with my best friend's best friend  
Why you gotta play?

I'm broke down, I'm broke down  
I'm broke down and blue  
I'm broke down, I'm broke down  
Tell me woman whacha trying to do?

I'm broke down, I'm broke down  
I'm broke down and sad  
I'm broke down, I'm broke down  
Woman why you gotta make me mad?

Woman why you treatin' me  
You treatin' me so cruel  
However you been treatin' me  
I'll always be your fool

I'm broke down, I'm broke down  
I'm broke down and blue  
I'm broke down, I'm broke down  
Tell me woman whacha trying to do?

I'm broke down, I'm broke down  
I'm broke down and sad  
And thou I've been broke down  
Woman you're the best I ever had

## 5. Where You Wanna Go?

Tell me, where you wanna go from here?  
Where you wanna go from here?  
Tell me, where you wanna go from here?  
Where you wanna go from here?

You wanna follow sir, a woman  
Who tell you just a what you wanna hear?  
You wanna follow sir, a man  
Who tell you all the things  
He think you gotta fear?

Tell me, where you wanna go from here?  
Where you wanna go from here?  
Tell me, where you wanna go from here?  
Where you wanna go from here?

You wanna follow sir, the people  
Who wanna give they money away?  
You wanna follow sir, the people  
Who wanna keep they money  
Past they dying day?

Tell me, where you wanna go from here?  
Where you wanna go from here?  
Tell me, where you wanna go from here?  
Where you wanna go from here?

I wanna follow sir, the people  
Who care of what they reap and what they sow  
I wanna follow sir, the people  
Who think of what they earn  
And think of what they own

I'll tell you, where I wanna go from here  
Where I wanna go from here  
I'll tell you, where I wanna go from here  
Where I wanna go from here

Where you wanna go from here?
