BROKE FUSE

The Underground

1. Subway Blues

I've been spending all of my life underground
Underground
I've been spending all of my life underground
Underground

Whistling up at Finch
Sheppard me back home
Out of luck at Lawrence
St. Clair on the phone
Riding down past Rosedale
Riders by my side
Past the blur of Bloor St.
Can't be satisfied

I've been spending all of my life underground
Underground
I've been spending all of my life underground
Underground

Nothing to learn at College
King me for a day
Save me won't you St. George
Wilson's on his way
Nothing new at Downsview
So I'll head on back
Park myself at Queen's Park
Find the things I lack

I've been spending all of my life underground
Underground
I've been spending all of my life underground
Underground

Feeling old at Yonge St.
Stuck out in the Bay
Feeling low at High Park
Feeling lost at Jane
Rolling past that Old Mill
A pauper at Royal York
Turned around at Kipling
Find my spoon and fork

I've been spending all of my life underground
Underground
I've been spending all of my life underground
Underground

I've been spending all of my life underground
Underground
I've been spending all of my life underground
Underground

So unsure at Sherbourne
Bridged at Castle Frank
Have a drink at Donlands
Get back on the map
Meanwhile passing Main St.
Warden let me loose
Catch a bus at Kennedy
Enough of this abuse

I've been spending all of my life underground
Underground
I've been spending all of my life underground
Underground
I've been spending all of my life underground
Underground
I've been spending all of my life underground
Underground

I've been spending all of my life underground
Underground
I've been spending all of my life underground
Underground

I've been spending all of my life
Underground

2. Been Up So Long

I been up so long, I been up so long
I been up so long I'm afraid of coming down

Well I woke up yesterday morning
Not much I was planning to do
When I got a call from my good friend
He said lemme come over and have a little
drink with you

Well alright, I said
It's better than lying in bed
Next thing I knew it was the afternoon
All out of whisky and there's nothing to do

I been up so long, I been up so long
I been up so long I'm afraid of coming down

Well my friend said we better get going
To make it to the party cross town
Did I forget to mention the party?
With my good friend C.C. in a nice royal
crown

Well alright, I said
A walk would surely clear my head
Next thing I knew it was midnight
All out of whisky and it doesn't seem right

I been up so long, I been up so long
I been up so long I'm afraid of coming down

Well my friend said we better get going
To have a few last drinks at the bar
Pretty soon it's gonna be closing
Don't you worry, we don't have to go too far

Well alright, I said
It's better than going to bed
Next thing I knew it was 4 am
Feeling like a man about to be condemned

I been up so long, I been up so long
I been up so long I'm afraid of coming down

Well my friend said we better get going
There's one last stop that we should make
We didn't drink the whisky at my house
Better do it 'fore it gets too late

Well alright, I said
I'm pretty sure that soon I'll be dead
If I'm gonna crash soon boy don't you know
I might as well have something that will
cushion the blow

I been up so long, I been up so long
I been up so long I'm afraid of coming down
I been up so long I'm afraid of coming down
I been up so long I'm afraid of coming down

3. I Won't Go

I'm gonna wait 'til you come back baby
I won't go, I won't go
I'm gonna wait 'til you come back baby
I won't go, I won't go
I'm gonna wait 'til you come back baby
There's no if, ands, butts or maybes
I'm gonna wait 'til you come back baby
I won't go

I'm gonna wait 'til you come back honey
I won't go, I won't go
I'm gonna wait 'til you come back honey
I won't go, I won't go
I'm gonna wait 'til you come back honey
Then the skies will be clear and sunny
I'm gonna wait 'til you come back honey
I won't go

I'm gonna wait 'til you come back lover
I won't go, I won't go
I'm gonna wait 'til you come back lover
I won't go, I won't go
I'm gonna wait 'til you come back lover
There's so much left to uncover
I'm gonna wait 'til you come back lover
I won't go

I'm gonna wait 'til you come back baby
I won't go
I'm gonna wait 'til you come back honey
I won't go
I'm gonna wait 'til you come back lover
I won't go

4. Monday Blues

I've been feeling them Monday blues
I've been feeling them Monday blues
I've been feeling them Monday blues
Everybody feels it, well it ain't no news

Every seven days I'm bound to feel this way
Every seven days I'm bound to feel this way
Every seven days I'm bound to feel this way
And it's two weeks to go 'til I get my pay

I'll be staring at this screen all week
I'll be staring at this screen all week
I'll be staring at this screen all week
It's my job to watch it and it sure is bleak

Farewell Monday, now I'm glad you're done
Farewell Monday, now I'm glad you're done
Farewell Monday, now I'm glad you're done
But the Tuesday Blues ain't any more fun
